## EXPERIMENTS IN BLACK AND WHITE

A WOMAD Commission for  
the Festival at Charlton Park,  
24 – 27 July 2014

‘Experiments in Black and White’  
is an exploration of four materials –  
ice, chalk, oil and air. These elements  
are fundamental aspects of the  
natural world and are variously  
contested and debated as we  
look to the future of the planet.  
The project includes:

**outdoor screening of short films**  
**performance drawing**  
**participatory project and talks**  
**programme: collective breath**

A WOMAD World of Art commission curated by  
Jeni Walwin and produced by Tammy Bedford
